Twist Flexi link kit

The Flexi link has been developed so that you can create and recreate virtually any stand shape you require without having to change hardware or graphics.

Designed not only to look different when compared to the majority of exhibition stands, the Flexi link, when used in conjunction with the Original or Media Twist, offers greater flexibility for companies who do not always know what their stand space is going to be.

Varying heights and the ability to link an unlimited amount of both Original and Media Twist banners together, the Flexi link panel offers the ability to create backdrops and exhibition displays that are not only unique and strong, but are also easy to assemble and transport.

DEAL ONE

Twist Original

Extremely stable and simple to erect, the Original Twist banner is the basis for the Twist range.

Complete with an integrated low voltage light and transformer, the Twist also has the ability to be single or double sided as standard.

Moreover, the patented tensioning system makes Twist self levelling, allowing banners to link together on uneven and difficult floors.

Single Sided £254
Double Sided £360
